COVID Guidance – Marine Facilities

As the recreational marine industry begins to open to the public, we would like to share some tips to help protect you, your employees, and your customers. Care must be taken by all facilities and entities. Facilities should strictly follow any Federal, State and local guidelines. This includes implementing CDC recommended guidelines for your facilities, including enforcing the use of personal protective equipment (PPE) to safeguard your employees and your customers. In many cases, PPE usage is required by law so please remember to check regularly for any changes. As the number of active COVID cases decrease, we must remember to remain vigilant so we can minimize the potential transmission of Covid-19 and allow all to enjoy the benefits our industry provides.

Facilities

- Post appropriate signage at your facility advising visitors that you will be adhering to all recommended CDC guidelines and that you recommend customers do as well.
- Keep your facility clean.
 - Clearly identify customer public areas.
 - Place **6 foot markers** on the ground or walls to keep customers at a 6 foot minimum distance from one another.
 - Install plexiglass barriers at customer interaction points.
 - Minimize shared touch surfaces such as devices, keys, pens, etc.
 - Provide disposable personal protective equipment (PPE) where possible (primarily disposable masks)
 - As necessary, **minimize customer group** gatherings.

<p>Teamwork is key!</p> <ol style="list-style-type: none">1. Identify team leaders2. Provide specific cleaning guidance3. Keep and maintain logs4. Provide proper cleaning and sanitation equipment

Try to limit face-to-face customer interaction and remember to maintain proper social distancing!

Employees

- **Review** CDC Guidelines with your team.
- Review and comply with **OSHA COVID 19 Guidance Document 3990**.
- All cleaning and disinfecting materials must be included in your OSHA HAZMAT Materials Log and Safety Data Sheet Workbook.
- Set expectations that all team members will follow social distancing guidelines and must use PPE that is recommended by the CDC and in compliance with OSHA regulations.
- Stay current on changes to the CDC, Federal, State and local guidelines and amend your procedures accordingly.
- Daily health checks of your employees are recommended. If an employee is feeling ill, they should not come to work and their health should be monitored.
- Make sure employees are diligent about handwashing and hygiene especially after contact with customers.
- Allow employees to work from home when possible.
- Keep a log as necessary to document procedures.

OSHA has established a new requirement that any company currently operating implement a Covid-19 safety policy based on **Blood Borne Pathogens Guidance Document BPP, 29, CFR 1910.1030 to protect their workers.**

Employees should wear face masks. Remember, face masks are mostly to prevent the transmission to others.

Customer Interaction

- Inform your customers of your COVID policies and procedures in advance whenever possible.
 - Use posters and signage to remind customers of physical distancing at entrance & waiting areas.
 - Customers should stay away if they are feeling ill.
 - Customers should keep a distance of 6 feet between one another.
 - Post maximum number of customers allowed inside common areas.
 - Customers should be encouraged limit the number of people they bring, especially children.
- Limit large gatherings.
- Have a supply of PPE (primarily face masks) and hand sanitizer available for customer use.
- **IMPORTANT: Out-of-state customers arriving via the water should be made aware of your specific state's rules and regulations regarding quarantine. This protects you, your customers, and your employees.**

Disclosures

- Remember to regularly check and follow your state, local government, and CDC guidelines.
- This document is meant as a helpful guide to promote the safe reopening of many businesses. It does not expand, extend, or liberalize your current insurance program. If you have questions about your insurance coverage, please contact your agent.
